Business Analyst – Data Conversion (Fixed Term)

- **Fixed term project opportunity – 9 to 12 months**
- **Market leader – an exceptional addition to your CV**
- **Vibrant, dynamic and well-resourced environment**

Austereo, one of Australia's most innovative and exciting entertainment-based media companies, is looking for an enthusiastic, motivated and highly skilled Business Analyst to join one of its special project teams in Sydney on a fixed term basis.

Reporting to the Project Manager, your key focus area will be data conversion. Your role in the project is to be responsible for all aspects of data cleansing, consolidation, conversion and reconciliation.

As the Business Analyst in charge of data conversion, you will work in collaboration with project leads and various stakeholders within Austereo to identify, plan and execute all tasks required to alter source data to match agreed protocols, consolidate data into target systems, convert data from source to target format, and reconcile data to support the preceding cleansing, consolidation and conversion activities.

The successful candidate will possess:

- Previous experience in ERP or system integration projects
- Advanced Microsoft Excel and/or Access skills
- Exceptionally strong analytical skills
- Sound organisational skills coupled with the ability to multi-task
- A proven ability to work to tight deadlines as part of a team
- A high degree of work accuracy and attention to detail
- SAP experience (highly desirable but not essential)

Interested? Please send your résumé and a brief cover letter (with salary expectations) to careers@austereo.com.au quoting 019-10 in the subject line. We look forward to receiving your application.

Applications close: Wednesday, 10 March 2010.
